Accident Description / Nature of Injury:

- The employee was injured as he left the Law Enforcement/EMS building through back door when he slipped on ice falling on right shoulder and with his right hand outstretched.

Investigation / Compensability:

- The injury was in the course and scope of employment and on the employer’s owned and maintained premises. Claim is accepted as compensable.

Medical Management:

- The claimant was seen at the Family Care Center in Wakeeney and then referred to Salina Orthopedics. His MRI showed a right shoulder rotator cuff tear with a possible bicep separation. Dr. Johnson requested a right shoulder RTC repair which has been authorized but is currently on hold due to COVID19. He has also injured his R index finger and thumb and is in conservative care for that at the local Wakeeney care clinic.

Periods of Disability:

- The employee was injured in capacity of a volunteer EMS worker and works full time as the Sheriff. It is not anticipated that he will lose any pay or time off of work due to the worker’s compensation event.

Permanent Partial Impairment / Permanent Disability:

- The employee is anticipated to receive an impairment rating of 6% to the shoulder and the file is reserved for the same.

Subrogation / Other Issues:

- N/A

Plan of Action:

- I will work with the claimant for any treatment necessary as he awaits a confirmed surgery date.
- Once the claimant has surgery, I will monitor his care and progress to determine no intervention is needed.
- Once the claimant is at MMI I will seek a rating and ultimate settlement to close his file, full and final.
